“Princess of Asturias Foundation,
Madrid,
SPAIN

Your Royal Highness

Madswimmer is a charity organisation that has at its core to lighten the plight of children in South Africa. To those unfamiliar with our brand, Madswimmer, a charity involved with daring swimming challenges to raise funds for children’s charities . By risking our lives we are investing everything. If we don’t, how can we expect sponsors to invest? Facing threats might mean we’re mad but we have to be even madder not to care”. –

We are supporting the candidature of CEMIN due to the fact that South African professionals form part thereof. As an organisation that focus on the well being of children we agree with the general principle that the best interest of the children should prevail is paramount to our society.
